

CARDLOCK

ACCOUNT BENEFIT

Flyers Energy team members can now apply for a Flyers Energy CFN cardlock account. If approved, fuel pricing is 3 cents over cost when using a CFN network site. Prices are lowest at Flyers owned sites.

Overall, you should see a savings over a year. This program is based on wholesale prices (average savings vs. average retail is around .10-.30 per gallons). There will be times when the wholesale market goes up quickly and is more expensive vs. low cost stations like Costco or ARCO. If you are super price conscious and enjoy shopping and finding the lowest priced gas station in your area, this program is likely not a good match for you. You will not know the employee price you will be paying until you receive the invoice.

REQUIREMENTS TO OPEN A FLYERS TEAM MEMBER CARDLOCK ACCOUNT:

1. Team member must have successfully completed the 90 day introductory period.
2. Complete the credit application. Please sign both the application and the continuing personal guarantee signature line. Also complete the EFT sections on the application. Under the "Delivery Information" section, for the Delivery address - please write in how many gallons of gas you purchase per month.
3. Complete and sign the CFN Card Team Member Agreement.
4. Submit forms to the credit department at credit@flyersenergy.com. Subject line: Team Member CFN Application.
5. Submit all forms in an envelope addressed to the credit department via inter-office pouches, or mail to the Auburn office if you work at an outside office without pouch service.

TERMS OF PAYMENT are 15 days. Payments will be due on the first and fifteenth of each month
